"All life is an experiment. The more experiments you make the better."
- Ralph Waldo Emerson

Congratulations, Kimberly—we salute you!

"ERSO HR had a very tight deadline to submit a mass funding file which impacted a large number of UCPath records. Kim [Citalan] helps prepare a mass upload file weekly, but this week we had a higher volume of lines on the report than normal, and a tighter deadline. Kim worked closely with the controller's office to submit the file, manage an issue that came up with it, and get it resubmitted, all in time to meet the deadline. She dropped everything to ensure this got done and did it excellently. Kim saved the day, I am very grateful for her dedication."
